

## Appendix 3: Appendices Presentation Assignment

### Appendices Presentation Assignment

You will present a **2-3 slide & 4-5 min. summary** of your assigned appendix material on the [Google Spreadsheet](#) and found in the back of your Broadview [*novel title here*] text to convey the following information:

1. **Title slide** (1 slide)—title(s) of your Appendix material and your name(s)
2. **Content slides** (1-2 slides)—*Why* did the editor \_\_\_\_\_ include this material, and *what* content in or about the novel does it support/amplify? **Remember that appendix material may address *local content* (in the novel) or *meta-content* (cultural information about Austen's world that shaped her and her novelistic vision).**

You may be as creative or reportorial with your presentation as you wish. Your style of presentation is up to you, but you *must stay within the time limit* so that everyone has an equal chance to share the work they have prepared. You will need textual evidence in your slides.

To present, you will simply share your Zoom screen yourself and talk to us. :)

Be sure to **upload a copy of your slide presentation to our class Google folder** so that we all have access to them (especially me, if I need to revisit something about your presentation for your grade).

**Presentations must be ready promptly at the start of class so that we can adequately cover all the material everyone has prepared.** Please submit the link to your slides for this assignment submission in Canvas.

I will use the “Assignment Expectations” rubric attached to this Canvas assignment to assess both the completion and quality of your presentation in meeting the guidelines above. Please consult the [AAC&U Oral Communication Value Rubric](#) to remember and apply the characteristics of professional presentations.
